

# Noble Wine

## This is our first wine list for our own bar

We have been moving towards the idea of a wine bar for more than 5 years and have selected wines and styles that we love and want to share with you. We are constantly looking for small, family-owned, honest producers who produce real wine, pick grapes by hand, work with natural yeast and often do not filter to preserve the full taste of the grapes.

Our card, just like our wines, is very lively and we will try to surprise you with new products from different regions, as daily we will have approximately 80 wines served by the glass. Especially the wines of Burgundy and Champagne, which we love. Here you will find organic, biodynamic and natural wines. We try to find wines that are best suited to – food, atmosphere, moment – and you.

The philosophy of Noble Wine is to work with true wines that have a soul and lets you embark on a path of wonderful emotions.

**Enjoy the journey!**

Noble Wine Bar Team – Sandra Grīnmane-Botikova,  
Aleksandrs Minajevs, Ronalds Pētersons, Dmitrijs Sinkevičš

### **Organic**

Organic wines are produced with organically grown grapes and limiting the usage of chemicals.

### **Biodynamic**

Biodynamic wines are produced by growing grapes with the help of the Lunar calendar, recognizing the interconnection between all living things and the consequent need for biodiversity and sustainability as well as limiting the usage of chemicals.

### **RAW (a.k.a. Natural Wine)**

Natural wine is farmed organically or biodynamically and made without adding or removing anything in the cellar. No additives or processing aids are used.
